SUMMARY

Results-driven Web and Mobile developer with a strong computer science background. Collaborative team player experienced in code reviews, optimizing performance, and delivering high-quality software solutions. Skilled problem-solver with meticulous attention to detail, continuously staying updated with industry trends to drive innovation.

WORK EXPERIENCE

Frontend Developer, Bell-Bit Technologies Apr 2025 - Present

- Built an interactive class scheduling system for Addis Ababa University using React, Tailwind, and React Big Calendar with full drag-and-drop and resizable.
- Customized calendar interface and animations with Framer Motion and advanced CSS to enhance user experience.

Fullstack Developer, AI Chatbot for DigitalPartner.si Jun - Jul 2025

- Built an AI chatbot widget using PHP, JavaScript, Tailwind CSS, and Gemini API with lead capture and dynamic responses.
- Deployed on alwaysdata with GitHub integration, session tracking, and environment-based script loading.

Frontend Developer, Bell-Bit Technologies Jan - Apr 2025

- Developed a research data management platform using SvelteKit, Flowbite-Svelte, and Auth.js with secure user authentication.
- Optimized Excel/CSV data import/export and API interactions for efficient large-scale research data handling and performance.

Fullstack Developer, JobQuest Job Market Place Jan - July 2024

- Built a full-stack job marketplace platform with SvelteKit, Firebase Auth, and a Node.js backend, featuring real-time chat and role-based dashboards.
- Implemented job filtering, profile-matching logic, and optimized data fetching for seamless user experience across job seekers and employers.

EDUCATION

Bachelor of Computer Science June 2022 - July 2025

Addis Ababa University

- Graduated with Great Distinction — GPA: 3.75
- Relevant Work: Developed a Class Scheduling System for the University

SKILLS
